Permissions

1. Go to **system → Permissions → User Roles.**
2. Select the user role you want to grant permission.
3. Go to the tab "Role Resources".
4. Select **CompactCode → Product Subscribe Pro → Configuration.**
5. When this is selected, save the role.

Warning: By default, new modules grant access to every user role, even when they are not selected.

To deny permissions, just follow step 1-6. Deselect the mentioned resources and save the role.

Settings

Navigate to settings

1. After logging in to the Magento® backend click the CompactCode icon.
2. Click configuration under the "Product Subscribe Pro" title.

General settings

1. **Module Enable:** enable or disable the Product Subscribe Pro module.
2. **Enable customer groups:** enable or disable customer groups. This way you can limit subscriptions to specific customer groups only.
3. **Enable alert on product in stock:** enable or disable subscriptions on products in stock. This gives users the ability to subscribe on stock changes in the frontend.
4. **Enable price alerts:** enable or disable subscriptions on price changes. This gives users the ability to subscribe on price up or down changes.
5. **Enable price up:** when enabled, the customer will be alerted when the price of the product increases.
6. **Enable price down:** when enabled, the customer will be alerted when the price of the product drops.
7. **Success message text:** you can change the text of the success message when a customer is successfully subscribed.
8. **No subscriptions message:** the text in the subscriptions tab on the customer page if the customer has no subscriptions.
9. **Button text:** the subscribe text of the button on the product pages.

Email templates

1. **Send email from:** select from where you want to send the subscription mails.
2. **Enable mail on subscribe:** enables or disables the subscription mails, this mail will be send when a customer subscribes on a product.
3. **New subscribe:** when email on subscribe is enabled, you can select your email template for the new subscription email.
4. **Enable mail on unsubscribe:** enables or disables the subscription email, this mail will be send when a customer unsubscribes themselves from a product.
5. **Enable mail on auto unsubscribe:** here, you can select the mail you want to send when a customer is automatically unsubscribed on a product.
6. **Unsubscribe:** select the email template for the unsubscribe mail.
7. **Enable on product in stock:** select whether the in stock email will be send or not.
8. **In stock:** you can select the in stock email template.
9. **Enable price email:** if you want to send an email for price changes, you can select them here. You can choose between price up, price down or both. You can also disable this setting.
10. **On price higher:** if you have selected price up or both in the previous setting, you can select the email template for the price up email.
11. **On price lower:** if you have selected price down or both in the previous setting, this field will show where you can select the email template for the price down email.

Modal settings

1. **Model title:** the title of the modal, this gets rendered on the top left corner of the subscribe modal.
2. **Modal CSS classes:** you can add custom CSS classes for the modal. This way it's easy to add custom CSS styling.
3. **Modal description:** the description you see on the left side of the modal. This field is a wysiwyg so you can easily add a link or a custom image to your description field.
4. **Subscribe stock notice:** you can change the text of the information label in the modal. This only shows when a customer wants to edit their subscription and when they are subscribed on stock.
5. **Subscribe price notice:** you can change the text of the information label in the modal. This only shows when a customer wants to edit their subscription and when they are subscribed on price.

Subscribers list

Navigate to list

1. After logging in to the Magento© backend, click the CompactCode icon.
2. Click subscribers list under the Product Subscribe PRO title.

Add subscribers

1. If you want to add subscribers, click the add subscriber button on the top of the listing page.
2. Select the customers you want to add a subscription.
3. For the next step, click the step 2/3 button on the top right.
4. Select the products where you want to subscribe the users on.
5. If you want to go to the last step, click the step 3/3 button.
6. Enable this if you want to subscribe on the stock.
7. If you want the customers to be subscribed on the price, toggle the button.
8. Click here if you want your customers to stay subscribed on the selected products.
9. If you want to inform the selected customers that they are subscribed on the products, select this field and an email will be send.
10. If you are finished, click save.

Edit a subscription

1. When you want to edit a subscription of a customer, you click on the select field in the actions column and choose "edit".
2. You can change the email of the subscription here.
3. Enable this when you want to notify the user when a product is back in stock.
4. Enable this when you want to notify the user when a product price changes.
5. Enable this when you want to automatically unsubscribe after the first mail has been send.
6. Finally, save the changes.
